THE SOUND OF SCIENCE.

PATH MEDICAL

PATHTRACK®: Reliable software for your newborn hearing screening program

PATHTRACK® helps you to discover data from millions of babies in Newborn Hearing Screening.

It's an easy and intuitive tracking system for Newborn Hearing Screening or School Screening. Multiple clients can connect and review tracking status, caregiver information and all other upcoming activities.

PATHTRACK® communicates seamlessly between your screening and diagnostic instrumentation storing and managing all communication with parents, physician and reporting centers through the entire evaluation process.

FOLLOW YOUR PATIENTS WITH PATHTRACK.®

Fifteen years of experience in tracking solutions, understanding the specific needs of your screening program. We have developed a tailored software solution for you.

No baby is left behind with PATHTRACK®.

MAKE YOUR DATA VISIBLE BY ANALYSING THE MOST IMPORTANT QUALITY FACTORS:

- AN AUTOMATED STATUS ENGINE, IDENTIFYING PASS AND REFER BABIES.
- A POWERFUL SEARCH ENGINE PICKING OUT A SINGLE PATIENT.
- NEVER MISS A SINGLE BABY WITH OUR AUTOMATED RESUBMISSION MANAGEMENT SYSTEM.
- A TEST-RESULT-VIEWER, VISUALIZING THE QUALITY OF THE SCREENING TEST.
- TEMPLATE MANAGEMENT, CONTACTING THE BABIES' PARENTS THROUGH TRACKING CENTRE STAFF VIA EMAIL, TEXT MESSAGES OR POSTAL LETTERS.
- FOLLOW UP WEB-ACCESS, RECEIVING INFORMATION, DIAGNOSIS AND TEST RESULTS VIA A WEB-BROWSER.
- MONTHLY FEEDBACK FOR YOUR SENDERS.
- AUTOMATED AND MANUAL STATISTIC REPORTS.
- PROTOCOLS AND NOTES ARE EASY TO ADD TO THE SYSTEM BY YOUR TRACKING STAFF.

PATHTRACK® is installed in 20 countries across the world.
